# Document Title

## Table of Contents

An example of a basic AsciiDoc document prepared by Doc Writer.

More syntax here

## Introduction

A paragraph followed by an unordered list[1] with square bullets.[2]

1. Introduction
2. Summary

- item 1
- item 2
- item 3

## Main

Here's how you say "Hello, World!" in Prawn:

*Listing 1. Create a basic PDF document using Prawn*

```ruby
require 'prawn'

Prawn::Document.generate 'example.pdf' do
  text 'Hello, World!'
end
```

## Conclusion

That's all, folks!

[1] AsciiDoc supports unordered, ordered, and description lists.

[2] You may choose from square, disc, and circle for the bullet style.
